AUTOMATIC SOLDER FEED STATION

Ideal solution for processes that require a free hand. It works with the C250 cartridge range. Speed and length of the solder wire can be set while also monitoring its use. The station is compatible with an unipolar Ø 1,0 mm soldering wire. This station allows to have a reel of up to 2kg (DIN 100).

Product composition:

- 1 ALE soldering station
- 1 ALE250 handle
- 1 ALES support for ALE250
- 1 C250403 Ø 1 for AL250 & AP250
- 1 guide kit GALE10V Ø1.0 mm
- 1 SCH cartridge holder
- 1 P405 pedal
- 1 PLR195 cartridge extractors
- WEEE/RAEE

Technical specifications

Code	**21372**
Voltage	230 V
Peak power draw	150 W - 23.5 V
Selectable temperature	from 90° to 450ºC
Operative temperature	10° - 50ºC
Resistance to ground	<2 ohms
Voltage to ground	<2 mV RMS
Solder wire diametre	1.0 mm
Wire maximum length	250 mm
Weight	7.83 kg
Measures	235 x 170 x 112 mm

ESD

Complies to
IEC 61340-5-1
regulations
