

SOLDERING STATION WITH AUTOMATIC TIN INTAKE PISTOL

The station allows to work with just one hand, allowing its user to support cables, connectors, transformers and THT components. The AP250 pistol is a great instrument for quick work and definite tin usage.

Technical specifications

Code	20741
Alternative code	CA-2QG 230 V
Selectable temperature	From 90°C to 450°C
Temperature precision	±3%
Grounding fuse	F 1.25A
ESD-SAFE	YES
Peak power draw	130W
Operating temperature	From 10°C to 50°C
Measures	145x150x175mm
Weight	2,86 Kg

Product composition:
1 CA station, 1 AP250 soldering pistol. **Cartridges not included.**
