

CP-2QF SOLDERING STATION WITH MICROPLIERS

The station is the best solution for reworking SMD, small components, small/medium SOP and dual-lines. componenti come chip, piccoli e medi SOP e componenti dual-line. The adjustable micropliers make it even easier to work on tasks that require precision.

Technical specifications

Code	20742
Alternative code	CP-2QF 230 V
Selectable temperature	From 90°C to 450°C
Temperature precision	±3%
Grounding fuse	F 1.25A
ESD-SAFE	YES
Peak power	80W
Operating temperature	From 10°C to 50°C
Measures	145x150x175mm
Weight	3,14 Kg

Product composition:
1 CP station, 1 AM120 micropliers. **Cartridges not included.**
