Complies to
IEC 61340-5-1
regulations

Product composition:

- 1 DMU station
- 1 MSE desoldering module
- 1 AM120 micropliers
- 1 T210 precision handle
- 1 T245 handle
- 1 DR560 desoldering handle
- 1 ADS support
- 1 AMS support
- 1 DRS support
- 1 SCH cartridge holder
- 1 P405 pedal

4-TOOLS REWORKING STATION

DME manages up to 4 tools at the same time and is completely compatible with 10 different JBC tools. The electric desoldering MSE module is irreplaceable for a complete desoldering process. Even if the control unit is highly compatible, DMPVE functions with a T210 precision handle, a T245 handle, AM120 micropliers and a DR560 desoldering handle.

Technical specifications

Code	19786
Voltage	230 V
Peak power draw	160 W
Selectable temperature	From 90 to 450 °C
Vacuum	75% / 570 mmHg
Resistance to ground	<2 ohms
Voltage to ground	<2 mV RMS
Weight	12,79 kg
Measures	232 x 148 x 120 mm
