### Technical drawing:

## ESD-SAFE WORK TABLE WITH WHEELS AND SHELF

Suited for electronic labs, our ECO series is practical and robust. The structure is painted with static dissipative grey RAL7035 epoxy powders. The supporting structure is composed of steel 40x40mm square sections and its ground clearance is 910mm. The worktop has rounded corners in order to increase safety.

### Technical specifications:

Code	<b>20117</b>
Colour	grey RAL7035
Worktop material	ESD-SAFE static dissipative antiscratch laminate
Ground clearance	910mm
Worktop measures	1800x800mm
Laminates' thickness	27mm
Shelf measures	1740x656mm
Load capacity	200kg
Wheels	4 ø100mm conductive wheels

### Superficial resistivity

R <sub>s</sub> shelf	10 <sup>4</sup> Ω < R <sub>s</sub> < 10 <sup>9</sup> Ω
R <sub>s</sub> paint	10 <sup>3</sup> Ω < R <sub>s</sub> < 10 <sup>9</sup> Ω

200kg load capacity  
with distributed load

rounded corners

easy to assemble

4 conductive wheels with  
brakes

Complies to  
**IEC 61340-5-1**  
Regulations

**Made in Italy**
