## ECO ELETTRO ESD-SAFE TABLE

The ECO line is practical and robust. It has a painted structure with a coat of static dissipative epoxy powders in Grey RAL7035 colouring. The supporting structure has a 40x40mm square section that allows this workbench to handle weights up to 250kg. The working surface is made out of static dissipative metallic laminatete, it has a 810mm ground clearance and has black ABS rounded borders . Thanks to the 12 schuko sockets power rail you'll be able to easily power all your tools.

### Technical Design:

Sturdy and practical

Easy to assemble

Multi-use

Worktop with rounded corners

Power module

### Technical Specifications:

<b>Code</b>	<b>19566</b>
Colour	grey RAL7035
Load capacity	250kg with distributed load
Frame-Paint	dissipative epoxy powders
Worktop material	antiscratch ESD laminate
Ground clearance	810mm
Worktop size	1800x800mm
Power supply	12 schuko sockets with magnetothermic switch

### Superficial Resistivity

$R_s$ worktop	$10^4\Omega < R_s < 10^9\Omega$
$R_s$ paint	$10^3\Omega < R_s < 10^9\Omega$

complies to  
**IEC61340-5-1**  
regulation

Made in Italy
