

EPA PREMIUM KIT WORKSTATION

This kit allows to set up a complete EPA curated to the minimum details to guarantee total safety against ESDs while working on sensitive electronic components. The center of this kit is our flagship KE HIGH 1500 ESD-SAFE workbench. With the help of the labcoat, chair, floormat, heel cover and grounding node, the user won't bring any electrostatic charge inside the delimited area.

Code kit	17294
Vinylab floormat	14741
