ESD-SAFE KIT FOR WORKBENCHES

The ESD-SAFE mat is mainly used in electronic labs where soldering processes are carried out on electronic components. The mats are in rubber and resist greatly to soldering tips, fluxants and acids.

- Measures: 1200x600mm
- Thickness: 2mm

All mats are supplied with a 3m grounding cable with crocodile terminal and an adjustable bracelet.

Technical specifications

Code	4947	1246	12351
Measures	600x1200mm	600x1200mm	600x1200mm
Upper surface	Smooth grey opaque	Rough grey coloured	Rough light blue coloured
Lower surface	Conductive; black	Conductive; black	Conductive; black
Superficial resistance	From 10^7 to $10^9\Omega$	From 10^7 to $10^9\Omega$	From 10^7 to $10^9\Omega$

Each angle of the ESD-SAFE mat has a male poussoir button
