

ESD-SAFE TOOL HOLDING CART WITH 3 SMOOTH SHELVES AND WHEELS

This tool holding cart is an outstanding solution for moving instruments and material inside labs. Thanks to its static dissipative coat of epoxy powders and ESD-SAFE conductive wheels, it can be used inside even the most demanding ESD-SAFE environments, EPAs and electronic labs. Composed of three smooth shelves and an integrated handle. This product complies to IEC61340-5-1 regulations.

Technical data

| | |
|-------------------------|----------------------------|
| Code | 20016 |
| Measures | 800x420x800h mm |
| Load capacity | 150kg |
| Superficial resistivity | $10^3 < R_s < 10^9 \Omega$ |
| Wheels' material | conductive rubber |
| Wheels' diameter | Ø80mm |
| N° of shelves | 3 |
| Colour | grey RAL7035 |
