THE WORLD LEADER IN FUME EXTRACTION TECHNOLOGY

codice 15447

FumeCAB 700

ELECTRONICS, PHARMACEUTICAL & MEDICAL

Last Updated on 30.08.2018

The complete solution for fume cabinet extraction for a broad range of applications.

Partial enclosures are becoming the recommended extraction option for a variety of applications. Government bodies, including the HSE in the UK are now making direct reference through guidance documentation such as the HSG258 to their use.

The FumeCAB 700 integrated filtration system has been designed to ensure compliance with the latest regulations. The innovative Cam filter change design enables safe and simple front loading filter replacement and provides many benefits over alternative rear access systems.

Ultra-bright slim line energy saving LED lights come as standard with optional UV lighting, making the FumeCAB 700 an ideal choice for applications such as the conformal coating of PCBs, where operators can now easily identify uniformity issues with the coating.

Automatic flow control (AFC) technology (230v only)

Reverse flow air (RFA) technology

Advanced carbon filter (ACF) technology

ProTECT service plan

SureCHECK quality standard

Key features of the FumeCAB 700

Technology

Certified to BS 7989:2001 - Recirculatory filtration fume cabinet specification Standard

Auto Sensing Flow Control Standard

Twin coated anti UV / anti splash protective Polycarbonate visor

Standard

Large working area Standard

Audible and visual warning alarms Standard

VOC monitor Optional Ensures operational compliance with HSG258 guidelines Standard

Energy saving ultra-bright slim line LED lighting Standard

Low noise level Standard

Side entry blind grommets for equipment access Standard

UV lighting Optional

Stand Optional

Replacement filter part numbers		
Description	Part number	
Pre filter	A1030269	
Combined filter	A1030270	

Technical data Product EU US Dimensions (HxWxD) 780 x 700 x 490 mm (30.71 x 27.56 x 19.29") Opening dimensions (hxw) 675 x 225mm (26 x 8.8") 675 x 225mm (26 x 8.8") Cabinet construction Powder coated mild steel Powder coated mild steel 0.4m/s (78.7ft/min) 0.5m/s (100ft/min) Face velocity Max face velocity 0.6m/s (118ft/min) Electrical data 230v 50/60Hz Full load current: 2 amps 115v 50/60Hz Full load current: 3 amps Noise level < 53dBA (at typical operating speed) < 55dBA (at typical operating speed) Weight 65kg 143lbs Exhaust outlet (optional) 100mm 100mm CE Approvals CE

Pre filter specifications		
Filter media construction	Filter pad	
Filter housing	Cardboard	
Filter efficiency	99% @ 0.3 microns	

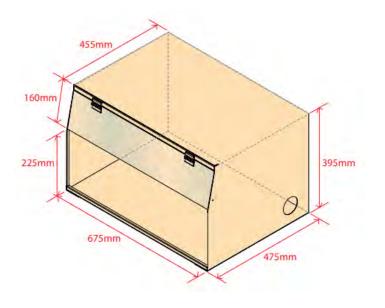

Combined HEPA / Gas filter specifications		
Product	FumeCAB 700 Powder coated	
HEPA filter media	Glass fibre	
HEPA media construction	Maxi pleat construction with webbing spacers	
Filter housing	Zintec mild steel	
Treated activated carbon	10kgs (22 lbs)	
Filter efficiency	99.997% @ 0.3 microns
