KE HIGH 2000 WORKBENCH

The KE HIGH 2000 workbench has a sturdy and robust structure. This model is the perfect choice due to all of its add-ons: A shelf with quick adjustment, an electric module with 6 schuko sockets and a LED illumination module. The frame is painted with epoxy powders. The working surface is made of anti-scratch laminate with black 27mm thick ABS borders. The ground clearance is 800mm. Thanks to 6 millimetrically adjustable feet the workbench can always be levelled.

Equipment:

1950mm high upright supports with a rapid attachment shelf, an electric module with 6 schuko powersockets with a magnetothermic switch and a LED 4200K illumination module. The columns offer the option to add various accessories.
