

MOTORISED TOOLHOLDING CART

Our motorised tool holding cart has the same traits of our premium series, the apex of ergonomics, flexibility and comfort. The two motorised columns grant the ideal height for various operators, even without the need to connect it to a power socket, thanks to its high capacity battery.

Rendering:

Code	21849
Height	from 740 to 1030mm
Number of shelves	2
Worktop measures	600(L)x500(P)mm
Power supply	rechargeable battery 24V
