TORQUE MEASURER FOR PNEUMATIC AND ELECTRONIC SCREWDRIVERS

Model: TM-015

Model: TM-150

Torque measurers are easy to use tools, ideal for measuring torque both while screwing and unscrewing.

- Equipped with double reading scale Nm/Kgf-cm
- LED indicator for completed measurement
- Possibility for the user to choose between "zero" and "auto-zero"
- Automatic test of maximum and medium values
- Connection to a PC through USB for data output
- Possibility to connect to printers

Technical data

Code	14008	13890
Model	TM-015A	TM-150A
Torque range	0.15~10kgf-cm	1.5~150kgf-cm
Precision	+/- 0.5%	+/- 0.5%
Full charge autonomy	30~ hours	30~ hours
Connection	PC and printer USB	PC and printer USB
Measures	123x230x65mm	123x230x65mm
Weight	1.8Kg	1.9Kg

Adapters features

TM-015		
	Torque range (N.m)	Hexagon (mm)
SJ-03 	0.015/0.3	5
SJ-10 	0.3/1.5	
TM-150		
SJ-10K 	0.3/1.0	6,35
SJ-50 	1.3/5.0
