Complies to  
IEC 61340-5-1  
regulations

## BELL VACUUM THERMOSEALER

Studied and designed to avoid formation of electrostatic charges, it's highly recommended for all environments where high levels of ESD safety are needed. Thanks to the compressed air pump (Venturi effect) heating, vibrations and noise are reduced to a minimum.

### Technical specifications

<b>Code</b>	<b>11031</b>
Sealing length	460x10mm
Vacuum pump	Venturi effect
Measures	500x600x100mm
Weight	60kg
Power supply	220V/50Hz
Noise pressure	<70dB
Noise level	<85dB

### Package contents

Quantity	Product
1	Power supply cable
5	Foam spacers
1	Soldering resistances
1	Autoadhesive teflon
2	40mm upper teflon
1	Rilsan tube

Frontal panel with emergency stop button, control keyboard and net switch.

Back panel with net input, air input, air's manometer for Ø6x8mm Rilsan tube and pressure regulator.
